

93% AFUE GCV9 VARIABLE-SPEED GAS FURNACE

QUALITY MANUFACTURED

HEATING THAT REDUCES

OPERATING COSTS WHILE

ADVANCING HOME COMFORT.

- 10-YEAR UNIT REPLACEMENT LIMITED WARRANTY
- LIFETIME HEAT EXCHANGER LIMITED WARRANTY
- 10-YEAR PARTS LIMITED WARRANTY

ENERGY EFFICIENCY IS KEY...

TO CONTROLLING THE COST
AND COMFORT OF HEATING
YOUR HOME.

As a homeowner, you try to find a balance between your family's comfort and your monthly energy costs. To meet those needs, we've developed the KLIMAIRE® 93% AFUE High-Efficiency Two-Stage, Variable-Speed Gas Furnace. What should you expect from your KLIMAIRE 93% AFUE High-Efficiency Two-Stage, Variable-Speed Gas Furnace? How about superior performance, efficiency and affordability? That's just what you'll get with KLIMAIRE.

PRECISE ROOM-TO-ROOM TEMPERATURE CONTROL

KLIMAIRE's 93% AFUE High-Efficiency Gas Furnace with two-stage heating and a variable-speed circulating blower provides a total comfort home-heating alternative – efficiently and economically. This furnace's variable-speed circulating blower reduces operating costs and advances home comfort by reducing temperature swings and stratification from floor to ceiling. Unlike standard furnaces that run “all on” or “all off,” a KLIMAIRE variable-speed furnace runs 90% of the time in the low-heat capacity on most days. But when the weather is very cold, it ramps up to

high-heat capacity so that your family stays warm and snug. The variable-speed blower improves air circulation and helps keep the air temperature more consistent throughout your home.

QUIET OPERATION

Your KLIMAIRE High-Efficiency Furnace uses a multi-speed induced draft blower motor and variable-speed circulating blower to reduce the noise levels common in other furnaces. Since this unit runs in low-heat stage 90% of the time, the impact of the normal high-fire sound is eliminated 90% of the time. Add to that a fully insulated, heavy-gauge steel cabinet, and the result is... extra-quiet comfort.

YEAR-ROUND ENERGY EFFICIENCY

Energy efficiency is key to controlling the cost of heating your home. The Department of Energy (DOE) established the Annual Fuel Utilization Efficiency (AFUE) system to calculate the annual operating cost of home furnaces. This KLIMAIRE furnace's 93% AFUE rating means 93 cents of every \$1.00 of heating energy expense warms your home. Some older central heating systems rate at 60% AFUE, meaning only 60 cents of the gas burned contributes to your home's

heating. The remaining 40 cents is lost energy—wasteful and expensive.

Many other furnaces have only one capacity: high-heat. Because a KLIMAIRE variable-speed furnace runs 90% of the time in the low-heat capacity on most days, it shifts into high-heat capacity only occasionally, and therefore requires significantly less energy. And the low constant fan setting costs about as much to run as a 75-watt light bulb. At 93% AFUE, your KLIMAIRE High-Efficiency Furnace meets the higher standard of the Environmental Protection Agency's (EPA's) Energy Star Program. Additionally, your KLIMAIRE

93% furnace is a low-NOx furnace, which means it emits fewer oxides of nitrogen than ordinary furnaces, contributing to better air quality.

INDOOR AIR QUALITY

This KLIMAIRE 93% AFUE furnace's variable-speed circulating blower slowly circulates the air throughout your home, gently passing the air over your filters more often and therefore creating cleaner indoor air.

QUALITY MANUFACTURING BACKED BY WARRANTIES AND SERVICE

RELIABILITY AND LONG LIFE

The heart of any furnace is the heat exchanger. Our patented aluminized-steel tubular heat exchanger and stainless-steel recuperative coil have been tested to the highest industry standards. The unit can fit any downflow or horizontal application, has a durable Silicon Nitride Igniter, and has integrated controls with diagnostics, plus a combination redundant gas valve and regulator for further safety and reliability.

GUARANTEED WARRANTIES

We guarantee your KLIMAIRE 93% AFUE High-Efficiency Variable-Speed Furnace with one of the best warranties in the industry. In addition to covering the heat exchanger with a Lifetime Limited Warranty to the original, registered homeowner, we guarantee that if the heat exchanger fails during the first 10 years of ownership, we will replace the entire unit. This KLIMAIRE furnace also has a full 10-Year Limited Warranty on all other functional parts.

For even greater protection and worry-free ownership, ask your KLIMAIRE dealer about

GoodCare,® an affordable Extended Service Plan for your entire system.

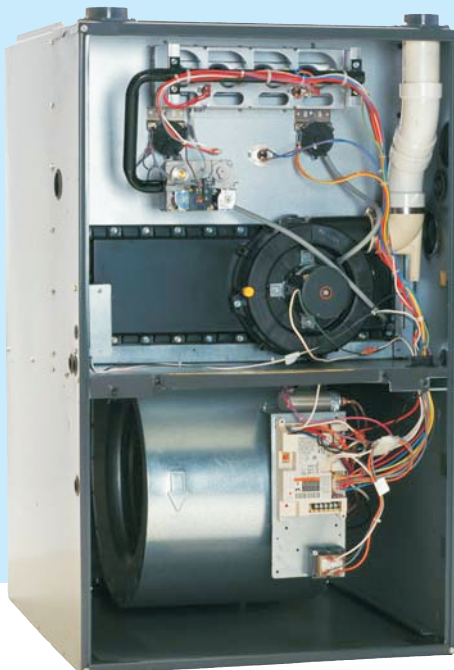

GUARANTEED QUALITY

From KLIMAIRE, you can depend on well-designed, top-quality, thoroughly tested products, backed by the best standard and extended warranties* in the industry. All KLIMAIRE production facilities are focused on strict, quality-driven processes. Every single furnace is run-tested before shipment. This quality focus ensures a trouble-free installation and long product life.

IMPRESSIVE FEATURES AND BENEFITS:

KLIMAIRE 93% AFUE GCV9

VARIABLE-SPEED GAS FURNACE

- 10-Year Unit Replacement Limited Warranty
- Lifetime Heat Exchanger Limited Warranty
- 10-Year Parts Limited Warranty
- Aluminized-Steel Tubular Primary Heat Exchanger; Stainless-Steel Secondary Heat Exchanger
- Durable Silicon Nitride Igniter
- Two-Stage Gas Valve
- Powder-Paint Finish
- Corrosion-Resistant Vent Blower
- Insulated Cabinet
- Electronic Ignition Control
- Variable-Speed Blower
