

95% AFUE GMV95 VARIABLE-SPEED GAS FURNACE

QUALITY MANUFACTURED

HEATING THAT REDUCES

OPERATING COSTS WHILE

ADVANCING HOME COMFORT.

- 10-YEAR UNIT REPLACEMENT LIMITED WARRANTY
- LIFETIME HEAT EXCHANGER LIMITED WARRANTY
- 10-YEAR PARTS LIMITED WARRANTY

ENERGY EFFICIENCY IS KEY...

TO CONTROLLING THE COST AND COMFORT OF HEATING YOUR HOME.

As a homeowner, you try to find a balance between your family's comfort and your monthly energy costs. To meet those needs, we've developed the KLIMAIRE® High-Efficiency Two-Stage, Variable-Speed Gas Furnace with up to 95% AFUE. What should you expect from your KLIMAIRE 95% AFUE High-Efficiency Two-Stage, Variable-Speed Gas Furnace? How about superior performance, efficiency and affordability? That's just what you'll get with KLIMAIRE.

PRECISE ROOM-TO-ROOM TEMPERATURE CONTROL

KLIMAIRE's 95% AFUE High-Efficiency Gas Furnace with two-stage heating and a variable-speed circulating blower provides a total comfort home-heating alternative – efficiently and economically. This furnace's variable-speed circulating blower reduces operating costs and advances home comfort by reducing temperature swings and air stratification from floor to ceiling. Unlike standard furnaces that run "all on" or "all off," a KLIMAIRE variable-speed furnace runs 90% of the time in the low-heat capacity on most days, but when the weather is very cold, ramps up to high-heat capacity so that your family stays warm and snug.

QUIET OPERATION

Your KLIMAIRE High-Efficiency Furnace uses a multi-speed induced draft blower motor and variable-speed circulating blower to reduce the noise levels common in other furnaces. Since this unit runs in low-heat stage 90% of the time, the impact of the normal high-fire sound is eliminated 90% of the time. Add to that a fully insulated, heavy-gauge steel cabinet, and the result is... extra-quiet comfort.

YEAR-ROUND ENERGY SAVINGS

Energy efficiency is key to controlling the cost of heating your home. The Department of Energy (DOE) established the Annual Fuel Utilization Efficiency (AFUE) system to calculate the annual operating cost of home furnaces. This KLIMAIRE furnace's 95% AFUE rating means 95 cents of every \$1.00 of heating energy expense warms your home. Some older central heating systems rate at 60% AFUE, meaning only 60 cents of the gas burned contributes to your home's heating. The remaining 40 cents is lost energy—wasteful and expensive. At 95% AFUE, your KLIMAIRE High-Efficiency Furnace meets the higher standard of the Environmental Protection Agency's (EPA's) Energy Star Program. Additionally, your KLIMAIRE 95% furnace is a low-NOx furnace, which means it emits fewer oxides of nitrogen than ordinary furnaces, contributing to better air quality.

QUALITY MANUFACTURE BACKED BY WARRANTY AND SERVICE

RELIABILITY AND LONG LIFE

The heart of any furnace is the heat exchanger. Our patented aluminized-steel tubular heat exchanger and stainless-steel recuperative coil have been tested to the highest industry standards. We guarantee their performance and back them with a **Lifetime Limited Warranty**.* The unit can fit any upflow/horizontal application, has a durable Silicon Nitride Igniter, and has integrated controls with diagnostics, plus a combination redundant gas valve and regulator for further safety and reliability.

INDUSTRY-LEADING WARRANTIES*

We guarantee your KLIMAIRE 95% AFUE High-Efficiency Variable-Speed Furnace with one of the best warranties in the industry.

In addition to covering the heat exchanger with a **Lifetime Limited Warranty** to the original, registered homeowner, we guarantee that **if the heat exchanger fails during the first 10 years of ownership, we will replace the entire unit.** This KLIMAIRE furnace also has a full **10-Year Limited Warranty** on all other functional parts.

IMPRESSIVE FEATURES AND BENEFITS:

KLIMAIRE 95% AFUE GMV95 VARIABLE-SPEED GAS FURNACE

- 10-Year Unit Replacement Limited Warranty
- Durable Silicon Nitride Igniter
- Lifetime Heat Exchanger Limited Warranty
- Two-Stage Gas Valve
- 10-Year Parts Limited Warranty
- Powder-Paint Finish
- Aluminized-Steel Tubular Primary Heat Exchanger
- Corrosion-Resistant Vent Blower
- Stainless-Steel Secondary Heat Exchanger
- Insulated Cabinet
- Electronic Ignition Control
- Variable-Speed Blower
